**Fife, Fergus, Flora, Angus Fields – Over Trawl, Environmental ROTV Surveys**

Overtrawl trials in the FFFA area are complete and clearance certificate has been issued by SFF. However, during these trials the sweep vessel encountered a severe snag 250m east of the 500m safety zone at the Fife location.

There are two tubular items estimated between 15 and 30 m long x 3 and 4 m diameter and between 30 and 40 mts in weight. The debris has been confirmed as non-Hess related and there are no plans for recovery of these items, therefore beware of the trawl hazard that they represent. An advisory 250m radius safety zone is recommended, centred on:

The coordinates for the snagging hazard are: 56°00.844'N 003°11.816'E
