### Marine Licence

First Published: 25 March 2014 | **Latest Updated: 25 March 2014**

Renewed Marine Licence for Marine Aggregate Dredging – Area 508

On behalf of Britannia Aggregates Ltd Limited, this is to advise that a Marine Licence for marine aggregate dredging has recently been issued by the Marine Management Organisation (MMO) to allow continuation of dredging on Area 508 (formally Area 108/3).

It is anticipated that operations will commence on or after 1st April 2014 within the coordinates listed below. The duration of the Licence is 15 years.

As required by the Fisheries Code of Practice, Masters of Dredging vessels will call up on VHF 16 when approaching the dredging area at a range of 10nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the dredger and fishing vessel(s) if required.

### Marine Licence

First Published: 25 March 2014 | **Latest Updated: 25 March 2014**

New Marine licence for Marine Aggregate Dredging

On behalf of Hanson Aggregates Marine Limited this notice is to advise that a Marine Licence for marine aggregate dredging has recently been issued by the Marine Management Organisation (MMO) for the existing marine aggregate extraction Area 106 and new marine aggregate extraction Area 400 (adjacent to Area 106) (Humber region).

It is anticipated that operations will commence on or after 1st April 2014 and the licence is valid until 2035.

As required by the Fisheries Code of Practice, Masters of Dredging vessels will call up on VHF Channel 16 when approaching the dredging area at a range of 10 nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the dredger and fishing vessel(s) if required.

### Marine Licence

First Published: 25 March 2014 | **Latest Updated: 25 March 2014**

New Marine licence for Marine Aggregate Dredging

On behalf of Hanson Aggregates Marine Limited this notice is to advise that Marine Licences for marine aggregate dredging have recently been issued by the Marine Management Organisation (MMO) for existing marine aggregate extraction Areas 212, 240, 328, 242-361 and 401/2 (Anglian region).

It is anticipated that operations will commence on or after 1st April 2014 and the licences are valid until 2035.

As required by the Fisheries Code of Practice, Masters of Dredging vessels will call up on VHF Channel 16 when approaching the dredging area at a range of 10 nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the dredger and fishing vessel(s) if required.

### Marine Licence

First Published: 13 March 2014 | **Latest Updated: 13 March 2014**

New Marine licence for Marine Aggregate Dredging

On behalf of Northwood Fareham Ltd and Volker Dredging Limited, this is to advise that a Marine Licence for marine aggregate dredging has recently been issued by the Marine Management Organisation (MMO) to allow continuation of dredging on Area 351.

It is anticipated that operations will commence on or after 1st April 2014 and both the northern and southern areas will be available simultaneously. The duration of the Licence is 15 years.

As required by the Fisheries Code of Practice, Masters of Dredging vessels will call up on VHF 16 when approaching the dredging area at a range of 10nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the dredger and fishing vessel(s) if required.

### East Coast Dredging/Fisheries Liaison – Issues Update Q1 2014

---

As a result of discussions at previous East Coast Dredging/Fisheries Liaison Committee meetings, a decision was taken to trial some alternative arrangements from June 2012 onwards.

These would see a single annual liaison committee meeting taking place during the summer (June/July), with the traditional winter meeting replaced by a written Issues Update which would be circulated electronically. The production of the Issues Update and its circulation would be coordinated by the British Marine Aggregate Producers Association.

The thinking behind this change was that the lines of communication and contacts were now sufficiently well developed to allow any site specific liaison issues to be addressed on a bi-lateral basis. As a consequence, the committee had evolved towards a platform to report updated general information against standing agenda items. Rather than holding a winter meeting for this purpose, it was agreed that these updates could potentially be achieved equally well via a written report.

Following discussions at the liaison committee meeting which took place on the 27th June 2013, it was agreed to continue with this approach. The second of these Issues Updates is therefore now available via the links below, together with a separate document provided by MMO which provide an update on the status of all marine aggregate licences and applications in the Eastern region.

The usefulness and effectiveness of this approach will be reviewed at the next formal meeting of the liaison committee, which will be arranged to take place at a suitable East coast venue in June/July 2014. Details of the venue and timing will be circulated 8 weeks prior to the meeting date.

The marine aggregate industry are committed to maintaining the levels of liaison and engagement with the commercial fishing sector. Therefore if any issues arise outside of the established liaison committee meeting cycle that are unable to be resolved through bi-lateral discussions, there is the option to arrange issue-specific meetings to address these.

Equally, if there are any comments on the information provided in the Issues Review, or suggestions for other information that could usefully be included, these should be sent to [bmapa@mineralproducts.org](mailto:bmapa@mineralproducts.org) so they can be considered at the summer liaison meeting.

#### Dredging – SW Isle of Wight

**On behalf of CEMEX UK Marine Ltd, Hanson Aggregates Marine Ltd and Lafarge Tarmac Marine Ltd this notice is to advise that a vibrocore sampling campaign is due to commence shortly in existing marine aggregate extraction Areas 127 and 137 (South Coast region).**

As required by the Fisheries Code of Practice, Masters of vessels will call up on VHF Channel 16 when approaching the licence area at a range of 10 nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the survey vessel and fishing vessel(s) if required.

### Survey Activity

First Published: 04 June 2014 | **Latest Update: 04 June 2014**

#### Liverpool Bay – Survey

**Fugro EMU Limited will be conducting a geophysical survey**

RV Discovery (call sign 2AEL8), a 24 m former fishing vessel, will be conducting a geophysical survey using hull mounted acoustic equipment and towed equipment up to 200 m behind the vessel. The vessel will be operating on a 24 hour basis. Throughout survey operations, the vessel will be displaying the appropriate lights and shapes as required under the COLREGS Rule 27 (b) and will require other vessels to maintain a wide berth of at least 200 m.
