

# 2019 UK Seafood Import Factsheet

## *Provisional Data*

Source: HMRC data via BTS  
Published: March 2020

# Introduction

This report contains key facts relating to the UK's seafood imports, including key countries and species.

- [Import summary](#) Seafood imports have increased value and volume, whilst experiencing inflation.
- [Top 20 countries of origin](#) The countries that import the largest value of seafood into the UK are Iceland, China and Germany.
- [Top 17 import species](#) The species with the greatest import value are salmon, cod and tuna.
- [Top 6 import species by country of origin](#) A breakdown of the top 20 importing countries is provided for the top 6 species: salmon, cod, tuna, warm water prawns, prepared & preserved prawns, and haddock

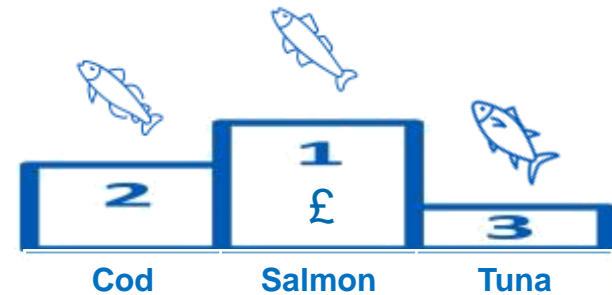

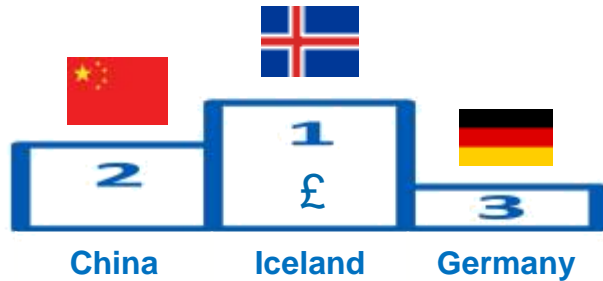

# Import Summary 2019\*

↑ £3,286m  
(+6.2%)

↑ 687k t  
(+4.8%)

↑ £4.78/kg  
(+1.3%)

- China
- Germany
- Faroe Islands
- Sweden
- Norway
- Spain
- France

- Vietnam
- Denmark

2019\* provisional data

### Data context

- This HMRC trade data is provisional, and may be amended prior to their final publication in September.
- No traceability is implied to the country of origin or geographic catch area of the seafood i.e. the named country may be part of a complex distribution chain.
- The values quoted are based on Cost, Insurance and Freight (CIF) delivery terms value for imports to the UK and the Free on Board (FOB) delivery terms value for exports from the UK.
- The volumes quoted are based on the actual product weight of the "goods" themselves without any packaging.
- % figures represent the change against previous year unless stated otherwise.
- Historic data has been refreshed inline with the September 2016 coding applied to finalised annual data.
- All calculations in this report were performed on the source data which may include many decimal places. For presentation purposes, the data in this report has been rounded at the end to reduce decimal places as far as possible. Therefore, manual calculations may provide slightly different results to those shown; please contact Seafish for the source data if you require further information.

### Key:

- k t = thousand tonnes
- YA = Year Ago
- Unless stated otherwise: green text = positive change v YA, red text = negative change v YA
- CW = Cold Water, P&P = Prepared & Preserved, WW = Warm Water.
